DETAILED ACTION

Claims 1-3, 7, 10-11, 14-15, 24-25 and 28-34 originally elected without traverse from Group I are pending. Claims 5-6, 8-9, 12-13 16-23 and 26-27 are cancelled.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

Claim 25 is directed to polynucleotide sequences encoding 3 independent and distinct polypeptide sequences. Applicant is required to elect a single polypeptide sequence of SEQ ID NO: 1, 2 or 3. This requirement is not to be construed as a requirement for an election of species, since each of the nucleic acid sequences or amino acid sequences recited in alternative form is not a member of a single structurally and functionally related genus, but rather constitutes an independent and patentably distinct invention. Separate searches and considerations would be required for examination of each of the nucleic acid sequences.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
